

FAMILY #3

(Information updated April 2024)

These are not descendants of Family #1

There were several other families who assumed the Gurulé surname, sometimes because they worked for the family, or for other unknown reasons.

Family #3 are the descendants of Antonio Gurulé and Teresa Salazar. They were one of 30 Genizaro families to settle in Belen.

Note: Moises Gonzales found a record for a petition for a land grant near Sandia Pueblo in 1750, along with 30 other Genizaro families. The petition was denied by Governor Tomas Velez Gachupin. Interesting enough, Governor Gachupin did approve a land grant at Belen for the Genizaro families, and they established the Plaza de los Genizaros de Belen. Of the families identified on the petition for land, Antonio Gurulé and Teresa are the first family listed.

Several male descendants of this family have had their DNA tested, and all are Q haplogroup (Native American).

Note → each generation is indented...thus Antonio and Teresa are parents of all children with #1 by their name. Then, Joseph Manuel Gurulé and Maria Josefa Jojola are parents of all children with #2 by their name, and so on....
