

FAMILY #11

(Information updated June 2023)

These are not descendants of Family #1

There were several other families who assumed the Gurulé surname, sometimes because they worked for the family, or for other unknown reasons.

These are the descendants of Martin Gurulé and Maria Angela Aragon. Baptism records place this family at Sandia Pueblo, yet they were not found in any of the early census records.

Note → each generation is indented....thus Martin and Maria Angela are parents of all children with #1 by their name. Then, Maria Febronia Gurulé and Miguel Antonio Salazar are parents of all children with #2 by their name, and so on....
