

FAMILY #14

(Information updated April 2024)

These are the descendants of Juan Nepomuceno Gurulé and Maria Gregorio Suazo.

- DNA Y-700 test results have revealed this lineage is from the line of Juan Antonio Gurulé, the second son born to Antonio Gurulé and Antonia Quintana. The problem is the placement of the results reveal a couple of generations missing and that still needs to be worked, *along with getting more Y-DNA testers from this lineage*

Note → each generation is indented...thus Juan Nepomuceno Gurulé and Maria Gregoria Suazo are parents of all children with #1 by their name. Then, for example, Jose Loreto Gurulé and Maria Victoria Suazo are parents of all children with #2 by their name, and so on....
